

# Test Certificate

## Product Information

|                       |                     |
|-----------------------|---------------------|
| <b>Issued To:</b>     | GTS Consulting 1917 |
| <b>Product Name:</b>  | XMI                 |
| <b>IMEI:</b>          | 300434063216120     |
| <b>Serial Number:</b> | 371                 |
| <b>Build Date:</b>    | March 28, 2018      |
| <b>Ship Date:</b>     | April 25, 2018      |

## Programming

|                           |            |
|---------------------------|------------|
| <b>Firmware Version:</b>  | v1.25-2842 |
| <b>Bluetooth Version:</b> | 2.04-2631  |

## Bench-test Results

|                                |                                               |
|--------------------------------|-----------------------------------------------|
| <b>Iridium:</b>                | ok                                            |
| <b>GPS (SNR, Time to Fix):</b> | ok (44 SNR -- 38 seconds)                     |
| <b>Water Sensor:</b>           | ok                                            |
| <b>Accelerometer:</b>          | ok                                            |
| <b>Reed Switch:</b>            | ok                                            |
| <b>LEDs:</b>                   | ok                                            |
| <b>Flash Memory:</b>           | ok                                            |
| <b>Bluetooth Functioning</b>   | ok                                            |
| <b>Test Voltage:</b>           | 15 V                                          |
| <b>Internal Voltage Read:</b>  | 14.941 V                                      |
| <b>Idle Current:</b>           | 97.76uA Bluetooth ON<br>37.89uA Bluetooth OFF |
| <b>Hibernation Current:</b>    | 74.49uA Bluetooth ON<br>16.76uA Bluetooth OFF |
| <b>Underwater Current:</b>     | 27.06uA                                       |

I certify that the above measurements are within specifications outlined  
in Test Procedure D-02-002: XMI.

Kris Dolomont  
Test Technician
